QUIKRETE
SAFETY KLEEN
SPRINT
SUNOCO
TOYOTA
WIX

Stations shall not broadcast local commercial messages advertising a product or service which is competitive with the network's commercial sponsors.

PROGRAM TRANSMISSION: ALL DAYS

PROMOS ON THE INTERNET:

IMS Radio Network is providing daily reports and event promos as MP3 files on the internet.

Stations may download the files from: <http://media.indycar.com>

1 Register for access. The simple process will take less than one minute.

2 Log in using your personal username and password. **3** Click to TV/Radio at top right and select IMS Radio Network from drop down menu.

Formats and additional information are available, as well as daily audio reports and promos. Follow the instructions on the screen. These files must be downloaded

to your computer before you will be able to play them.

The files are MP3 so your Windows Media Player should be able to play them for you. If you don't have an MP3 player, a quick search and download from the internet should solve that. The files should replay in CD-quality audio.

TO STATIONS ONLY CARRYING THE RACE:

We strongly suggest that you tune your satellite receiver to one of the pre-race programs on Thursday or Saturday to verify your station's ability to receive the IMS Network feeds over XDS.

DIAL-UP SERVICE:

All programs will be available by dial-up.

Stations requiring dial-up feeds must call (800) 846-4690. Payment is by credit card only. Enter your credit card information when prompted. Upon approval, your station will be connected to the program feed at a cost of 20 cents per minute, billed to the station's credit card.

If you don't want station staff to use a credit card, you must establish an account by calling TRZ Communications at (800) 846-4978 at least two (2) days prior to broadcast date to setup an account code. You will be required to provide a credit card number when applying for your account code.

After obtaining your account code, stations will call (800) 846-4690 to access the feeds at station's cost. Enter your account code when prompted. The station will be connected to the program feed at a cost of 20 cents per minute billed, after the race, to the credit card you provided when establishing your account.

Cumulus Media xds NETQUES

PROGRAM AUTOMATION NOW AVAILABLE

The IMS Radio Network is now offering program automation through your Cumulus XDS

XDS Receivers have Netque Cards built-in and you can program the I.M.S. netques into your receiver via the Cumulus XDS receiver web page.

CUMULUS (XDS) has plenty of information. And if that is not enough, XDS has actual people that can answer questions (that being their Affiliate Technical Services Department)!

The way to access the information quickly and efficiently is to visit their website which has links to PDF quick guides, primers, directions, etc. Your station can find those documents by visiting this page on their website:

<http://www.cumulusmediasatelliteservices.com/satellite-receiver-information.php>

Scroll down the page and the links will appear in orange. The station should read the "Schedule Primer." This document has step-by-step instructions with screen shots of how to schedule the receiver. Other recommended reading for starting out are "Special Events Scheduler" and "Netcues."

There are also other pages on the website which provide helpful information, too. So, the stations should take a moment and investigate the website. If all that fails, the station can contact our Affiliate Technical Services Department at (212) 456 5000, option 4.

The Netcues used by the Indianapolis Motor Speedway Radio Network are:
U31 Local Commercial • U32 Station ID • U33 End of Broadcast

The Netcues used by PRN are:
U12 Local Commercial • U13 Station ID • U33 End of Broadcast U15
Rain Delay • V40 Rain Rejoin • U83 Optional End of Broadcast

You may program your receiver by using the same web page as where you do scheduling. Or feel free to call Cumulus for assistance

If you have further questions, please contact:

Brian Wilson
Director, Engineering / Technical Operations
Cumulus
125 West End Avenue
New York City, NY 10023
Brian.Wilson4@cumulus.com
(212) 456-5000 Option #4 During Business Hours
(212) 456-5000 Option #3 Non-Business Hours

**PLEASE NOTE THAT YOU WILL
HEAR LIVE QUALIFICATIONS
BEFORE THE NATIONWIDE RACE.**

**THERE WILL NOT BE A
COUNTDOWN PRIOR TO THE
NATIONWIDE RACE BROADCAST.**
